

REMARKS/ARGUMENTS

The specification is amended to add a paragraph headed Brief Description of the Drawing. Support for the added paragraph is found at the originally filed Figure. Applicants note that addition of a paragraph and request for paragraph entry, as presented in this paper, is the proper way to amend the specification under 37 C.F.R. §§ 1.121 (b)(1)(i) and (b)(1)(iii); and that 37 C.F.R. § 1.121(b)(2) is not presently applicable, as the added paragraph is not a replacement section as the original specification did not contain a section entitled Brief Description of the Drawing.

No new matter is added.

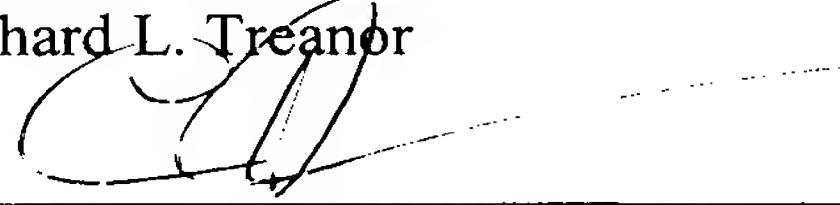

Applicants thank Examiner Boykin for the helpful and courteous discussion of November 4, 2009, initiated by the Examiner, wherein the Examiner requested Applicants file an Amendment under 37 C.F.R. § 1.312 to add a paragraph headed Brief Description of the Drawing and provide therein a brief description of the originally submitted Figure. Examiner Boykin noted that the specification amendment was necessary for the present application to pass to issue. Examiner Boykin further requested Applicant's undersigned representative contact her, after filing of this paper, so that prompt entry of the Amendment and Summary of Substance of the Interview Statement could be conducted. Applicants' undersigned representative agreed to prepare and file the requested paper, and to contact the Examiner immediately after the paper was filed.

Because the filing of this paper was requested by the Office, Applicants respectfully submit the filing of this paper should not negatively affect Patent Term Adjustment in this application.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, L.L.P.

Richard L. Treanor
